Please pardon Brian D. Hill of USWGO Alt. News of his conviction
« **on:** May 02, 2015, 11:55:10 pm »

Please everyone sign this petition for this former alternative media head. He fought for the people and that was why he was shut up with this false sex conviction. Please relieve him of his wrongful conviction. Please sign this petition and share with everyone you know who believes in USWGO Alternative News. He broke the DHS Document FOIA Dump in 2012 proving that Infowars was being targeted by the DHS Fusion Centers. Please SUPPORT Brian! He did a lot for Alex Jones and the people. Please help him as his Probation Officer is punishing and oppressing Brian for speaking

his mind in politics and the Judge is behind her taking his freedoms away. Please HELP HIM!

Note: If you wish to see the documents from Internet Archive then check them out here. I feel they are better posted there then on Scribd since they are now charging people for downloading documents or forcing them to upload approved documents before they can even download a document without paying a fee. Documents that the public deserve to know will be posted to Internet Archive and maybe Scribd combined. SO they are always available to download and circulate around the Internet.

Brian D. Hill, the former USWGO Alternative News reporter and Founder, is going through a tough time battling against the corrupt Federal Judge William L. Osteen Jr. to prove his Innocence and overturn his conviction. His friends that support him fear he will never get it overturned under that corrupt Federal Judge and will have to Appeal it which will even more time to overturn his Federal conviction.

So one of his supporters has started a Whitehouse.gov Petition asking U.S. President Obama (POTUS) to pardon Brian D. Hill since he is innocent of the crime of possession of child pornography. He already has enough evidence to get him acquitted by a Jury but he's afraid that going back a Jury trial will give the U.S. Attorney the opportunity to indict him again under a Superseding indictment. The least risky way to overturn the conviction is proving Actual Innocence which Brian is willing to do or that President Barack Obama agrees to pardon him then expunge his conviction which will waste less judicial resources under judicial economy. Also that means that Brian won't have to deal with the corrupt Federal Judge if the Executive branch agrees to pardon him. He can get off the Sex Offender registry and get his life back. He is still willing to prove his Innocence but many know that crooked Judge will never allow that. Therefore I and others beg you that you will sign the Petition and circulate it all over the Internet. All that petition needs is 100,000 signatures for the U.S. Department Of Justice to consider Pardoning him.

Please share this Petition link and spread it everywhere. Please sign it and ask all of your friends to sign it as well: Pardon Innocent man Brian David Hill and expunge all of his wrongful conviction in the U.S. District Court | We the People: Your Voice in Our Government

Yeah it is.

The man Brian D. Hill that was framed released a DHS Document FOIA dump. He was the one that asked Homeland Security for documents pertaining to the threat fusion center reports on the alternative media. He leaked a lot of important information before he was raided by Mayodan Police on suspected child pornography then arrested by Brian Dexter of the U.S. Department of Homeland Security in Winston Salem, NC. No joke, Homeland Security arresting him is in both mental hospital records and even the court record. He was targeted by the corrupt feds. DHS claimed he made inflammatory statements against the govt (anti-government) on the internet as one of the reasons he was a person of interest.

Look at all the postings about his case. This should be red linked, front page, Infowars News. This should be on every radio station in America.

Thanks for signing the petition. Brian will be very grateful and happy that there are people that didn't turn on him. The globalists want Brian discredited, demonized, and attacked until he commits suicide which he attempted to do before the DHS arrested him, that was why he was in a mental hospital. He hasn't given up yet and I won't either.

Thanks! Mods needs to super pin this. This is a concerning issue. Had Luke Rudkowski not reported to FBI about the child porn sent to his email, he would have been framed, convicted, then blackballed and added to the Sex Offender Registry just like Brian. Instead Luke Rudkowski was lucky to avoid the set up attempt, however Brian was raided by the police before he could report the set up attempt on him to the FBI. His life is ruined until the American people stand up for him. He is telling the truth as he has sent a ton of faxes/letters to the FBI and written a ton of Affidavits/Declarations. Brian is willing to prove his Innocence. He deserves the alternative media covering this. Brian has done everything he could to try to prove his Innocence but the court is getting in his way according to Judge Osteen's latest ruling in US v. Hill. Probation is trying to get in his way by threatening revocation on him for trying to contact his alternative media friends and his lawyer. They want to eliminate Brian D. Hill.

I have asked the Super Moderator to pin this post. Brian has done a lot for his community. He is definitely an innocent man. If he was guilty then why would he write letters and faxes to the FBI saying that he is Innocent? Perjury and lying to the FBI are both serious offenses. You have to tell the FBI the truth, and that is what Brian did, he told them the truth. He is Innocent but they don't care and are doing nothing about it. Brian does believe he is innocent so he is NOT lying. Alex Jones needs to realize he is NOT the same as Michael Jackson just because of what he was accused of. There are no witnesses other then just a few corrupt police officers that are confirmed to be connected with State Senator Philip Edward Berger Senior and former Rockingham County District Attorney Phil Berger Junior. All of these people are connected to each other so how can Brian be guilty? The court record shows he threatened to fire Phil Berger from his town council after he said he would try to be elected to the Mayodan town board, and he threatened to have Phil Berger removed from office multiple times and then his son DA Berger Jr. investigated him for child porn and then was involved in the search warrant according to Mayodan police report records. Berger was also involved with the SBI Agent Rodney White. Bergers fingerprints are all over this case even though it is a conflict of interest and high risk of bias.

Then his public defender gave him only one choice, **TAKE THAT GUILTY PLEA**, or Brian faces 20 years in prison. The court records show in the scheduling order that his attorney was supposed to file a Trial Brief for Jury Trial and his attorney filed no such brief on the same day of his guilty plea which is also the same day as the Jury Trial was to have commenced. He would lose the Jury Trial I have no doubt he would have with no defense, no trial brief, no evidence except one psychologist report by prison psychologist Dr. Dawn Graney. He was screwed and never would have any evidence to convince the Jury he is Innocent and has proof of multiple reasonable doubts in front of a Jury. He DID have the evidence but his public defender would never present it. He was screwed by DEFAULT, in violation of his Sixth Amendment right to effective assistance of trial counsel.

From: <johnsnatchz@tormail.org>
Date: Sun, Apr 7, 2013 at 5:30 AM
Subject: You better watch out.....
To: admin@uswgo.com

You better watch out Brian...We are watching you...Having child porn planted on your hard drives and computer was only the beginning and we will set you up for violent sex crimes if you don't watch your back...Have fun becoming a sex offender...Police won't believe you no matter how much evidence you have that you been set up we know some people in the SBI who will make sure you are convicted. You will be shut up by being a sex criminal. Your friends Alex Jones, Dan, James, Sean, Alex, and others are next...BeWare!

This threatening email came to him from a tormail.org account right before the child porn set up campaign emails to Luke Rudkowski, Dan Johnson and by framing Stewart Rhodes, and others. Also all of the victims of the child porn attacks were in the contact list of admin@uswgo;.com gmail account. **Around August 29, 2012 Brian D. Hill gave the police detectives the password to the email address account. Those police detectives gave the information to SBI Agent Rodney White which further conducted the criminal investigation in connection with former District Attorney Philip Edward Berger Junior. Junior and Senior are very close as**

the newspapers show, that his father was willing to launder campaign money to his son in his bid for U.S. Congress, mainstream news. admin@uswgo.com is the main account which controls the domain emails for Google Apps account such as newstips@uswgo.com, and other accounts under uswgo.com. The account password was circulated to other law enforcement prior to the child porn trick emails and threatening emails to Brian D. Hill. The two police detectives may be behind the child porn attacks on the alternative media. In 2015, right around when his Probation Officer started oppressing him and forcing him to make false admissions of guilt by threatening him when he wanted to plead the fifth amendment, Mayodan Police Department sent him a hard drive with child porn in it according to an Affidavit(Declaration) he sent to the FBI and his Probation Officer (all on Federal Court record) but she is refusing to go after Mayodan Police for giving him child porn in a trick to set him up again. Mayodan Police has access to child porn photos and possibly videos, and had access to all of his political contacts prior to all of the child porn emailing campaign against Luke Rudkowski and Stewart Rhodes. All of them were associated with Brian when he was threatening the power of Phil Berger. It may be a coincidence but I seriously doubt it.

His contact list has everybody, Luke Rudkowski, cell phone of Aaron Dykes whom works with Melissa Melton as of right now, Stewart Rhodes, and various others. The detectives wanted Brian's email password so that he can prove that he wasn't sexually chatting with preteens through email but no sexual emails of that nature were ever found. It was an attempt to get access to his political contacts. Now his Probation Officer is shutting him up by demanding that he can't text message anybody while claiming that text messages generally use an Internet Service Provider and thus violates his terms and conditions of Supervised Release. His PO may also be apart of the child porn conspiracy so she is a suspect too at least in my list. Brian's only crime was texting the federal Judge about his Innocence.

If the FBI won't investigate, we need Project Veritas, and certain other counter intelligence groups to investigate his Probation Officer, the Federal Judge, public defender, and other various people involved in Brian's child porn case.

Same method of operation. All from tormail.org same as the threatening email sent to Brian telling

him to shut up and that others were next which included several first or last names which seem to be a portion of his friends. Same threatening email that stated that they have **people in the SBI that "will make sure" that he is convicted, and will be a sex offender.** Then of course the SBI was caught manufacturing evidence, and also trumping up evidence at their crime labs in favor of the prosecutors which are the District Attorneys. Former District Attorney Phil Berger Jr. was presiding over the child pornography investigation against Mr. Hill around July 2012.

Alex Jones needs to wake up and realize that Brian is NOT A DAMN PEDOPHILE. Brian is an Innocent man and **deserves a full investigation into the matter** unless it is more comfortable for everybody to ignore him and treat him as uncle fester the child molester. Brian was 22 at the time this bullshit happened. He is not an uncle and he is not a child molester. People need to wake up and realize he is innocent. Not every person that questions his guilt is a pedophile sympathizer. People need to wake up and see that Brian was dragged into a political shithole, A POLITICAL dark hole in the ground he was dragged into. BRIAN IS NOT GUILTY!!!! People need to stop treating him like he is some child molester. He is Innocent and people need to investigate this otherwise he is shut up forever and it happen to anyone in the future without remorse.

pornography. Instead Mark Jones delivered a box from the Mayodan Police Department with evidence tape on it with two holes on the sides, which contained a hard drive with child pornography on it. That hard drive was destroyed then a report made to the Appellant's Probation Officer Kristy Burton and the FBI in Richmond, VA over the matter.

That attorney did not speak with the Appellant ever since he

informed his counsel that he was tricked into receiving a hard drive with child pornography on it from the Mayodan Police Department. All of this information has been filed with the U.S. District Court (Doc* 71, Filed 04/03/15) as NEW EVIDENCE in a public statement to The Court that the Appellant plans on filing a Petition for the Writ of Habeas Corpus on Actual Innocence, ineffective counsel, and possibly other grounds.
The Appellant is Innocent and the only

evidence left to prove Actual Innocence is with a Independent computer forensic examination to confirm that child porn was planted on his hard drive not just by a computer virus or computer hacker but also possibly by law enforcement.
That attorney didn't respond to any written, orally on voicemail, or any request/ inquiry for that matter since the hard drive was delivered to the Appellant, then destroyed by his family. Mark has done nothing but made the Appellant's life possibly worse and put him at risk of more criminal charges including possibility of Probation revocation had Brian not reported the hard drive to his Probation Officer Ms. Burton.
Mark is worse than Eric Placke the ineffective counsel because at least he didn't try to deliver any possible contraband to the Appellant. Further proof that the Appellant can win a Habeas Corpus petition with more than one child pornography set up attempted on the Appellant. He can win the Petition and overturn

his conviction then hopefully the FBI will hold Mayodan Police accountable along with the State Bureau of Investigation Agent Rodney White. All of the people that framed the Appellant should be held accountable but Mark will never do that.
So I have no objection whatsoever that Mark should withdraw himself as counsel. It may be better off that the conviction isn't partially overturned back to a Jury Trial as the Appellant can be put at risk of a superseding indictment with the possibility that all evidence that may help prove his Innocence will disappear as a consequence of a superseding indictment. Therefore the Appellant believes it is in his best interests to fully overturn his criminal conviction and has more of a reason to believe that the Town of Mayodan Police Department framed him with child porn from the start and requests an investigation on the matter to exonerate the Appellant from any conviction as a result of being framed.

He wishes his counsel a good day and a good life, and never wants him as legal counsel again on any Appeal in the future. Therefore, I request that the Clerk of the Court of the U.S. Court of Appeals file this EMERGENCY RESPONSE.
Respectfully submitted, Q^lfl^J^

You have less than a month to get 100,000 signatures. Have you considered calling the Alex Jones Show? It will be difficult without calling him and possibly some other high profile radio talk shows to get their help. Don't tell us who you are but tell us something about yourself such as if you are a relative or friend. It helps to know who we are dealing with.

I am a friend. I been writing articles since Brian is not allowed on the Internet since doing so would violate his condition under Supervised Release. He is already throwing tantrums that his PO further puts restrictions on him. He is having a hard time under Supervised Release. He has already broken certain stuff in his home over the probation restrictions. He is considering going back to a mental hospital just to get out of the constant stress his probation officer is causing him. It's been a real nightmare everyday and it is dragging his health down. He can't let all this go while under this ridiculousness of his sentence. He didn't used to be so angry and losing control. He keeps asserting his innocence but the Federal court doesn't care. You can read Judge Osteen's opinions and he sounds like he is trying to influence his PO by saying that texting uses the Internet when he is not designated as an expert in either the internet or cell phones. The Judge doesn't want him off the paper. It is all to keep him compliant and shut up until ten years later when all of his computers are destroyed so that nobody will ever know whether Brian was innocent of the crime or guilty. Brian is fighting like hell to prove his innocence and his probation officer is not making it easy on him constantly barking orders at him. He told me he is afraid to even meet with his probation officer and knows she will say something like more orders or threaten him with a probation revocation. He is not a criminal but they don't care. He is scared right now as he fights to overturn his conviction. He feels alone and scared. He told me every time his PO visits he gets bad vibes and the bad vibes turn out to be true as more bad news comes for him. It hurts me and others that this is happening to him. I am surprised he has not committed suicide as he has told me from time to time that me might. His probation officer is going too far and that officer is one of the best of that district. If that is one of the best then I hate to see what one of the worst will do to him. His family tells him to stay strong but it is getting to him. The Federal government won't admit they are wrong about this

man and keep asserting his guilt. They will never back off until he is dead or in a mental hospital for a long time. He needs allies at this point. He needs the alternative media to cover what he is going through so that he can stay strong while he fights to prove his Innocence and so the crooked Judge will back off with his tyranny. He is not a expert and should not designate himself as any form of expert.

USWGO didn't used to be like this. He is losing hope and is under constant stress everyday about his case. This case needs to be resolved now and the Judge needs to admit that he is wrong and needs to allow the resolving of such conflicts of evidence.

Brian says he has tried but with so many callers the line is busy at GCN. He says he will keep trying. Without the internet Brian doesn't know if he is calling in when Alex wants only certain criteria like only callers from a certain region. He will keep trying as he is limited without the Internet. Like I said he is a strong man. He is not a quitter.

He told me he tried getting a radio slot for Truth Frequency Radio with Chris Geo but days later he took off his slot. He has tried getting on other radio shows but they don't want him on either, all because of the "sex offender" label. People don't want him on their shows even though he was alternative media prior to his wrongful conviction. It is so sad!

If anybody can help me at least get 150 signatures, it can at least appear on the Whitehouse petitions search and public list, if I am right about that. What Brian needs is at least one alternative media outlet covering his case and this petition. It can be ActivistPost, Washingtons Blog, DrudgeReport, Infowars, or any other alternative media. If one covers his case, then eventually all of them will and will stop ignoring Brian. Brian is not guilty and there has to be a way to get them to realize that Brian is indeed Innocent so that they can cover his case. Just because Brian is labeled a Sex Offender does not make it true. I've heard from WomenAgainstRegistry that every single man that ends up on that Registry or even family members of somebody that is on that nightmarish registry is ignored by their peers, taunted, bullied, discredited, and some go to commit suicide. It is now happening to Brian. That was why Phil Berger and his associates wanted him on the Sex Offender Registry to receive the stigma that every usual Sex offender receives. They wanted that stigma to discredit him and hurt him for the damage he has done to the Berger campaigns.

If any alternative media wishes to cover Brian's case, he and I will be extremely grateful.

Your right! However Alex Jones, ActivistPost, DrudgeReport, Washingtons Blog, Lew Rockwell, Alternet, Sean Hannity, Michael Savage, or any other alternative media website needs to cover Brian's criminal case otherwise he will never be able to seek justice for his wrongful conviction. The media needs to cover this! He has provided enough evidence to the general public of his innocence, and already has enough to be found not guilty by any member of a Jury. He has been able to show that he has evidence of two or three reasonable doubts already. The court states in every Jury Trial that Defendant can only be found guilty if proven guilty beyond a reasonable doubt. That a Jury can only find the Defendant guilty if proven guilty of all elements of the offense. His ineffective counsel is definite proof that Brian had no such Sixth Amendment right to proving reasonable doubts. He is as close to proving actual Innocence as he ever has been with asking for a computer forensic examination. People need to be spreading the Sheila Dogwood articles on Facebook, RTR, Twitter, and other places and also show the case files from archive.org so that if people don't take Brian's word for it, they can do their own research. Phil Berger Jr. is involved in the entire case which is evident in the police report from Mayodan and in the SBI case file. Brian is willing to prove his Innocence, but he needs the alternative media to watch his back in cases of a corrupt Judge, a Malicious Prosecutor, and in cases of ineffective/backstabbing lawyers. Brian needs people to watch his case to keep the crooked court in check, to keep the Judge in line, to keep a balance in the legal system that is currently out of balance. Brian's not the only person to falsely plead guilty there. Donnie Robbins committed no crime except possessing a firearm for a crime he committed almost two decades ago, and he never re-offended but just because of a felony he wasn't allowed to own a firearm. Another victim Michael Anthony Nicholson Jr. was in a rough neighborhood and the only weapon he could carry was a knife and was jumped by two guys, and he fought in self defense until the police showed up. Michael gave consent to a search of his backpack which was already open with a case in there with different initials, and that very case had a firearm so he was framed with felony possession of a firearm. There were others that clearly could have won a Jury trial just like Brian David Hill but they all took the guilty plea in the very same court in front of the very same Judge that convicted Brian.

Just because it is a sex crime only regarding computer files that can easily be planted by a computer hacker or corrupt police, it doesn't make Brian guilty until he proves himself Innocent. Brian was treated like he was guilty before he was even arrested. The prosecutor asked the Magistrate Judge to treat him like a sex offender and put him under sex offender restrictions for protecting the community, read the docs from PACER and you will see that Brian was treated like a convict since the beginning. Even his public defender didn't want to prove Brian's Innocence when he clearly had the power and financial circumstances (CJA Voucher 21) to prove Brian's Innocence. The same public defender he had made every single Defendant plead guilty or was found guilty. The Judge is also biased towards the Defense lawyer which is bias. If a lawyer isn't doing his job then the Judge shall remove him as counsel upon any proof the Defendant can show. Our Justice System in the federal government has become corrupted.

He needs your help! He needs the alternative media otherwise then no media reporter is covering his case except for Sheila Dogwood and that is it. We need media attention, not being ignored or bullied by peers including the Probation Officer. We need media researching into all of this, even if it takes many months, the media needs to investigate all of this.

Re: Please pardon Brian D. Hill of USWGO Alt. News of his conviction
« **Reply #15 on:** May 06, 2015, 12:50:11 pm »

I just found out that Richard Reeves of Infowars will notify some reporters from Infowars to look into his case like Adan Salazar and Kurt Nimmo. If Infowars decides to cover it on their website, it will no doubt reach their Radio Show which will give the petition over 100,000+ signatures. If the state secession petitions can get a lot of signatures, then why not a petition to pardon a innocent man since the President has the sole power to pardon a man that he/she believes is Innocent. If a man is indeed innocent then why waste judicial resources and dealing with a corrupt Judge that will only waste more resources of the judicial economy. It would be far cheaper and efficient for the President of the United States to pardon Brian so that he will shut up and stop talking about being set up with child porn all of the time. If State Senator Berger's intent of the child porn charge was to shut up his political enemy then it had the exact opposite effect when Brian was placed on Supervised Release and not allowed to even visit his family in another state. When he is under strict Probation restrictions then instead of shutting him up he is getting more angry and aggressive in fighting to prove his Innocence. Berger doesn't know Brian and that terrible sex charge will only make Brian more angry and make him want to fight even more. Eventually somebody will listen. Eventually the SBI will arrest or fire Agent Rodney White, and eventually the Mayodan Police Chief will be under fire. Many may resign if Brian can convince even one government official that he was framed with child porn which can indeed happen upon any credible evidence. Asking questions opens up the case and enough evidence leads to formal criminal counter-investigations against those involved in investigating Brian Hill. Brian has more credible evidence then he ever did when he was released in November 2014. He knows what evidence the government has in Jan 2015 and knows they don't have the evidence to convict him had effective counsel been appointed instead of a crappy public defender. Infowars will eventually cover this and this petition will kick off for Brian's freedom.

One of many reasons why his family wanted him to stick with the guilty plea to get time served sentence was because Brian would have lost his social security disability benefits if he stayed in incarceration for about a year. With theimpact of mental health damage the criminal case has caused him, he would not be able to find work and would slowly deteriorate till death. He had no choice at the time but to get out of jail and the only way out was that Brian plead guilty to the charge. Now Brian wants to completely overturn his charge since he has the evidence for such, since he is innocent as he claimed in Declarations, and a little more is being gathered every month. He is confident he can win and overturn his conviction for good.

He needs alternative media support since he was indeed framed for being alternative media. They need to protect their own and Brian is not a bad man. He wants a nice exotic woman, not a child. He has said over and over again in Affidavit that he wants a wife, not a child. Brian was found that he will not re-offend because he never offended in the first place. He had no prior charges and no prior criminal investigations against him. He was contributing to the community through his political activism and news website USWGO.com. He has done a lot for the Patriot community and now he needs your support.

This petition is a winner whether Obama pardons him or not. If it succeeds then Brian is free again. If it fails then it further spreads the word of Brian's wrongful conviction and brings the confidence in the Court to a all-time low. Less people will have faith in a already broken court system. This petition will further show lack of credibility and lack of human rights in the American Judicial system. That will spark a need for reform. Already people in America hate the police because of the lack of accountability, lack of integrity, and increasing corruption in both law enforcement and in the courts. Having Brian's conviction overturned will help in showing people that we can still peacefully reform the justice system without a riot. We need to show people that a peaceful revolution through protests and educating people about our Constitution will have more of an effect then what we saw in Baltimore.

The Baltimore riots undoubtedly failed as overcharging the crooked police will only allow them to dismiss their charges. It was only done to stop the riots but will the corrupt police ever be held accountable? NO as riots aren't the answer. The answer is to peacefully get laws changed to get rid of legal immunity of the police. We need to hold them more accountable then we will see the end of shootings of unarmed men. Brian isn't the only innocent man suffering under a conviction but we need to stop these wrongful convictions eventually if we want true justice. We need independent investigations, we want the truth!

Before Brian was arrested by Dept. of Homeland Security, his investigative news reporting made

Infowars, especially regarding the FOIA Document dump regarding the Fusion Center targeting Infowars.com.

> Hundreds of pages of documents released under the Freedom of Information Act reveal that the Department of Homeland Security monitored political opposition to the See Something, Say Something campaign, as well as tracking Infowars stories and user comments on a myriad of other issues while categorizing the website as "Right Wing Terrorism".
>
> Having initially requested copies of records in August 2011, "regarding any political profiling documents that specify what groups are monitored under fusion centers all over the country and which kinds of people are profiled," Brian D. Hill of USWGO.com finally received the documents recently after a year of back and forth communication with the agency during which he narrowed down his request to include search results which included DHS discussion of a handful of websites, including Infowars.com.
>
> The documents contain email communications as well as intelligence reports circulated between different offices of the Department of Homeland Security as well as the Office of Intelligence and Analysis (I&A). In most cases, the identities of individuals both sending and receiving the messages have been redacted.

A report dated January 24, 2011, marked “for official use only” and produced by the Amtrak Intelligence Team is entitled Opposition to “See Something, Say Something”.

The report notes how Infowars.com launched a campaign in opposition to the DHS program, which encourages citizens to report “suspicious activity” to the authorities, including via television screens at Wal-Mart stores which play a message from DHS chief Janet Napolitano.

The document notes how Infowars “claims” the campaign was based on the “V for Victory” symbol of French resistance to Nazi occupation in WWII, while implying that the movie V For Vendetta, as well as an incident in 2006 where Clay Duke spray painted a ‘V’ on the wall during a school board meeting in Panama City, Florida before shooting at board members, were motivations behind the campaign.

“Some people may associate the film in which a modern-day Guy Fawkes attacks a totalitarian regime in England with Jones’ campaign,” states the document.

The report includes screenshots of posters used in the campaign, alongside the text, “Alex Jones is calling on people to place campaign posters in public places to counter a perceived “police state.” Supporters also might write the letter “V” on public property as a protest effort.”

The report makes it clear that the growth and success of the campaign was monitored by federal authorities.

“Jones’ Facebook page offers 58 “V for Victory” posters that people can print, and as of 24 January, 1,840 people “liked” his “V for Victory” Facebook page. Over 135,000 “like” Jones’ personal Facebook page,” states the report.

The document also includes a photo of an activist placing a ‘V’ poster on a telegraph pole in support of the campaign.

Screenshots from the report entitled ‘Opposition to See Something, Say Something’.

“On Jones’ website PrisonPlanet.com, an individual posted his photo (pictured above) in support of the campaign. Over 60 responses to the campaign shared support,” states the document.

The report then quotes an individual with the user name ‘netwrkingman’, who commented, “Just got done with my flyer campaign, EVERY Wal Mart door pole, fast food drive thru and Star Bucks drive thru in my local 3 cities is now V’d up. Woo.”

The document also notes how aggressive TSA screening policies introduced in 2010, “Spurred increased criticism that the U.S. government has become a “police state” that is abusing individual liberty.”

A subsequent email sent the next day by an individual from the “Office of Intelligence & Analysis – U.S. Department of Homeland Security – Baton Rouge, LA,” states, “For your S/A if you haven’t seen this reporting from yesterday—the groups is trying to counter the DSH (sic) “see something, say something” campaign.”

Another DHS email contains an Infowars story about how the DHS’ promotional videos for its See Something, Say Something campaign go to great lengths to portray white, middle class Americans as the most likely terrorists. The article notes how, “No matter where you look, from East Germany, to Communist Russia, to Nazi Germany, historically governments who encourage their own citizens to report on each other do so not for any genuine safety concerns or presumed benefits to security, but in order to create an authoritarian police state that coerces the people into policing each other’s behavior and thoughts.”

The emails also expose how the Department of Homeland Security has been monitoring Infowars in relation to a number of other news stories.

An email dated April 6, 2009 sent to “SL_Field” contains an article by Mark Potok of the Southern Poverty Law Center about Richard Poplawski, the man who killed three Pittsburgh police officers during a shoot-out on April 4, 2009. In the article, Poplawski attempts to lay the blame on Alex Jones for the shootings by claiming that “Poplawski was reportedly interested” in Alex Jones’ websites – Infowars and Prison Planet. What Potok fails to divulge is the fact that Poplawski had left comments on both websites disagreeing with and denigrating Alex Jones. When this was revealed, numerous large media outlets had to issue retractions withdrawing the claim that Poplawski was inspired by Jones, but the SPLC failed to follow suit.

One of the documents also covers the DHS’ reaction to an incident in January 2011 where a sticker was placed on the mirror inside a restroom at the Mitchell Courthouse, Baltimore City Circuit Court. The sticker, which read “9-11 Was an Inside Job. Learn the truth at InfoWars.com PrisonPlanet.com Jonesreport.com,” prompted the courthouse to contact the DHS and ask for advice on whether “I&A, SLPO and other LE/IC partners have reported similar activities?”

“This is a promotional sticker from Prison Planet and Infowars: He’s a conspiracy theorist from back in the late nineties that gets some airplay from but no one else takes him seriously. He believes that there’s a cabal of secret global elites that control the government through secret societies like Skull and Bones, Bohemian Grove, Masons, etc,” stated the DHS reply.

“The fact that this incident was even reported seems like a complete waste of time and paper, the fact that it was even reported at all is really pretty scary,” notes Donna Anderson. “This was merely a sticker, a thin piece of paper glued to a mirror, but because the message suggested a government cover-up, it was deemed a “threat” and reported to the DHS.”

A long email from April 2009 containing numerous news articles makes reference to how some on the political right were claiming that the DHS had begun to demonize conservatives as part of a “plan” to move away from any focus on Islamic terrorism”. The email contains articles from World Net Daily, the American Spectator, Atlas Shrugged, Stormfront, as well an Infowars story entitled Secret DHS Doc Predicts Violence in Response to New Gun Restrictions.

This article also forms the body of a subsequent email circulated within the DHS and sent to “A&P Managers” which also contained an attachment entitled, “Homeland Security Assessment Rightwing Extremism Current Economic and Political Climate Fueling Resurgence in Radicalization and Recruitment.”

The email notes how, “This must be the article (see attached email chain) that generated the calls to the NOC this morning.” The article describes how a DHS document warns federal and local officials to expect “terrorism” in response to planned firearm restrictions.

The document also contains dozens of comments from respondents to the articles, highlighting how the DHS is also closely monitoring remarks made on the Internet.

An email from August 2009 contains an article which includes a reference to an Infowars story about preparations for martial law in the event of a mass pandemic.

Screenshot of the Infowars.com front page in a report entitled “Right Wing Terrorism”.

Another document contains a power point-style report entitled “Right Wing Terrorism”. Included along with images of racist scrawlings on restroom walls, white supremacists, neo-nazis, and other race-hate groups is the Oath Keepers organization, the Sovereign Citizen movement and a screenshot of the Infowars.com front page next to the words, Hardin – American Police Force – Conspiracy theorists believe this is the new location for the FEMA camp.”

This refers to investigation conducted by Infowars in September 2009 during which it was revealed that a private security force had begun patrolling the streets of Hardin, Montana after the group was originally contracted to provide security at a previously empty detention center located in the town.

Another email from February 2010 which includes the acronym “FYI” (for your interest), contains an Infowars story by Kurt Nimmo documenting how police officers in Canada had been caught posing as anarchists in order to provocateur violence and demonize legitimate protesters.

Another email dated February 19, 2011 contains a link to Infowars article written by Steve Watson and Paul Joseph Watson entitled Don’t Be Evil? 10 Ways In Which Google Runs The World, which describes how Google has grown to become “literally an a corporate arm of the intelligence community.”

An email dated May 3, 2011 contains an L.A. Times article which discusses how “conspiracy theorists” doubt the official narrative behind the death of Osama Bin Laden following the dubious tale about how the Al-Qaeda leader was “buried at sea”.

These documents illustrate the fact that the Department of Homeland Security is slowly evolving into a KGB-lite style secret police outfit that seems to be just as concerned about monitoring political free speech as it is about genuine threats to the homeland.

The Transportation Security Administration (TSA) also admits that it has documents which contain political profiling pertaining to Alex Jones, Infowars as well as the Drudge Report, but has thus far refused to release them despite facing a Freedom of Information Act request.

Update: Phone numbers and contact info of Sen. Phil Berger and Rep. Bert Jones are added below this article so you can contact them and urge them to take action.

North Carolina state Senator Phil Berger and Representative Bert Jones have still kept quiet on a response to the Nullify-NDAA Petition with over 215 confirmed Constituents signatures, 221 signatures in total collected in Rockingham County. A paper petition is suppose to carry more weight then a Internet petition because paper petitions have to manually be signed with real signatures and usually a address, town/city, and/or phone number is added to confirm that those that signed were Constituents and to be kept on permanent government record. Those that have signed it are apart of North Carolina political civil rights history.

Last weekend the Patriot Coalition has also gone to the NC General Assembly to bring out the facts on why the state of North Carolina should end it's relationship with ICLEI and the UN's Agenda 21 Environmental Hoax, and the NDAA 2012 and 2013.

USWGO plans tomorrow to again call Sara Riggins the Constituent Liason of Sen. Berger's office and the staff at Rep. Jones office to ask them to respond to the Constituents in Rockingham County that signed the Nullify-NDAA Petition. USWGO will also contact the RockinghamUpdate to let them know the result.

Representative Bryan R. Holloway has taken a step towards fighting the NDAA due to the effects of the petition by constituents, and the email which brings out this fact has been publicly released by USWGO.

If the National Defense Authorization Act for Fiscal year 2012 and 2013 is not stopped, Americans will start being bombarded by even more Nazi-style propaganda similar to Anti-Jew propaganda by Hitler's Nazi team within months, and Americans can be disappeared and secretly raped, tortured, and even killed forever because of their political preferences similar to Nazi Concentration camps killing political dissidents.

That is all USWGO has to report on this matter until more information heads our way.

You can contact our reps and senator below to get them to follow the Constitution and take action according to the Nullify-NDAA Petiton Constituents wishes.

Note: After Brian was targeted by a Mayodan Police raid on August 28, 2012. Phil Berger Sr. was the town attorney at the time and as far as I know Mayodan Police has no separate attorney. So Phil Berger is apart of the same town government that targeted Brian D. Hill. Mayodan Police said they will get Dept. of Homeland Security after Brian. It is all coming together like a massive complicated jigsaw puzzle. After Brian was raided, he shut down uswgo.com without giving any public explanation. Now it is public that Brian D. Hill was being framed with child porn which was the very reason he shut down uswgo.com from the internet. He still keeps the domain registered but there is no USWGO Alternative News after the police went after him and took all of his computers. He was threatened by the police chief to make a false confession, then a day later the Chief talked with Brian about his website being slanderous to the Police Chief, for saying that he was removed from the town counsel. The police chief told him "I didn't make you leave, I only asked you to leave." Now on a online video of the Police Chief appearing to remove Brian from the town counsel saying 'closed session' he never asked Brian to leave and appeared to be escorting Brian away from town Attorney and State Senator Berger Senior.

An October 29, 2012 article by Paul Joseph Watson of InfoWars.com reports that Facebook removed one of Alex Jones' political posts and temporarily denied access to the Facebook page until Jones agreed to acknowledge that Facebook's terms had been violated.

The image of Osama Bin Laden with the words "Al-CIA-da" spelled out across his chest was clearly not copyrighted and Watson states Jones received the "We removed content you posted" message because it violated Facebook's Statement of Rights and Responsibilities.

Watson says there was also a secondary screen warning Jones that "other infringing images should be removed if the account was to remain in good standing."

This isn't the first time InfoWars.com content has been censored on Facebook, which advertises the fact that content posted on the site falls under public domain.

InfoWars.com reporter Darrin McBreen was warned not to voice his political opinion in September 2011 when Facebook took offense to comments posted on McBreen's article, "Is living off the Grid now a crime?"

An August 2012 article here at Examiner.com reports that the US Department of Homeland Security has been monitoring Jones' Facebook page for at least a couple of years. In response to a Freedom of Information Act request initiated by USWGO.com, documents were released that showed the DHS not only monitored Jones' fan page, they also monitored Jones' Facebook followers. The report included the following statement:

If Brian sent docs to Alex, Alex should be obligated to weigh in on the issue and try to bring awareness to yet another whistleblower getting framed by a corrupt government.

Do You know Brian D. Hill of USWGO Alternative News? He made Infowars, he was sued by Righthaven LLC for speaking out against the TSA full body patdowns, he was standing up against the NDAA of 2012, and threatened the power of State Senator Phil Berger Sr. before being falsely accused of this bullshit. Then you want to already be the judge, jury, and executioner. This is supposed to be the truth movement and patriot movement. We are supposed to be seeking the truth about Brian's Innocence and yet you are already wanting to call him guilty. He is NOT guilty and there is already enough evidence for multiple reasonable doubts.

I guess you think Luke Rudkowski is a pedophile too, because if he had not foiled it he would be in Brian's situation and you would be attacking him too.

What about Stewart Rhodes? A PDF file was sent to somebody with his name on it with child porn photos according to IT security expert Garrett.

I guess Stewart Rhodes, Dan Johnson of PANDA activism, and even Melissa Melton are pedophiles too. Come on and admit they are too since your so intelligent that you know for a fact anybody accused of child porn is a pedophile? Have you seen Brian flirting with Japanese women, have you seen Brian flirting with any cute looking women? If you did would you call him a pedophile?

With people like you, our justice system will further convict innocent people since you want to convict somebody before their own damn trial.

I also saw that the Super Mods unpinned this thread. It is ridiculous how people don't want to fight for Brian. If Alex Jones was charged with child porn next WHAT WOULD YOU DO? What would you do if Alex Jones was charged next huh? Will you turn your backs on him too? Will you turn your backs on Oath Keepers and We Are Change because they admitted to receiving child porn emails or because they were framed for a child porn email

What if you or your son got set up with child porn? What if innocent people get set up with child porn? You have to realize not everyone is guilty and all people like you do is start witchhunts with torches and pitchforks ready to castrate men's genitals then when they are found to be innocent later, they have to suffer with their genitals being cut off when being found innocent. Remember Alex Jones is for the TRUTH and NOT LIES. Brian has served the patriot community for 2-3 years with USWGO YouTube and promoting Alex Jones on his website. He is not guilty and is a poor disabled autistic target yet your ready to want to castrate this man without having the right to challenge his guilt.

Go ahead and make a list of everyone you convict as a pedophile:

1. Brian D. Hill
2. Stewart Rhodes
3. Luke RUdkowski
4. Aaron Dykes
5. Melissa Melton
6. Jeff Lewis
7. Dan Johnson
8. Alan Watt
9. Anyone else from the truth movement that you want to demonize as a pedophile. Go ahead and add Alex Jones to the list if your so confident Brian is guilty.

I am just being realistic here. Brian is no pedophile. You wouldn't even accuse him of all that until he became a political target for standing up against torture and YES that includes him PETITIONING against rape and sodomy. So he did all of this work against the NDAA law and you want to accuse him of being a pedophile, how sick!

worcesteradam, Go right ahead and call Luke Rudkowski a pedophile while your at it! He had access to child porn in 2013. He is guilty of possession and receipt. Go ahead and convict him too without a Judge, Jury, and a trial.
